ANNUAL FLU VACCINE CHOICES
BY ASKING YOUR VACCINATOR
OR VISIT FLUVACCINES.CO.NZ**

Studies have shown Flucelvax to be more effective at protecting you from the flu*

Compared to the standard flu vaccine, Flucelvax has been shown to be:

- up to **19.8% more effective** at protecting you from the flu**
- manufactured in a way that is **more environmentally friendly** and sustainable

Flucelvax is not funded so you will have to pay to have this vaccine.

TALK TO YOUR VACCINATOR ABOUT FLUCELVAX.

*Compared to the standard flu vaccine. Observational studies have limitations including potential for selection bias, residual confounding. Studies conducted in different seasons in people aged <65 years with different circulating strains. Studies carried out in either trivalent or quadrivalent formulation; effectiveness results are applicable to both. **May not predict a clinical effect. ^Over 5 separate US seasons (2017-20, 2022-24) and across different datasets.

Flucelvax[®] is an inactivated influenza vaccine, prepared in cell cultures. Flucelvax[®] is an unfunded Prescription Medicine, charges will apply. Flucelvax[®] is for the prevention of influenza in adults and children aged 6 months of age and older. Each dose of Flucelvax[®] Quad contains 60 micrograms/0.5 mL of surface haemagglutinin and neuraminidase from four influenza virus strains, type A and B. Each dose of Flucelvax[®] contains 45 micrograms/0.5 mL of surface haemagglutinin and neuraminidase from three influenza virus strains, type A and B. Flucelvax[®] has risks and benefits. Ask your healthcare professional if Flucelvax[®] is right for you. Side effects include injection site reactions such as pain, redness, swelling or formation of hard lumps and bruising; muscle aches or joint pain; flu-like symptoms such as headache, fatigue, fever, chills, cough, sore throat, runny or blocked nose; nausea, vomiting, diarrhoea and loss of appetite. Serious side effects include Guillain-Barré syndrome (feeling weak, numbness and tingling in your limbs). Tell your healthcare professional if you have ever had an allergic reaction to any vaccine or to any of the listed ingredients for Flucelvax[®]. If you have side effects after being given Flucelvax[®], talk to your healthcare professional.
